ARCHITECTURE SERVICES

Plan & Structural Design

Indus Build provides expert architectural services, specializing in planning and structural design to create innovative and sustainable spaces.

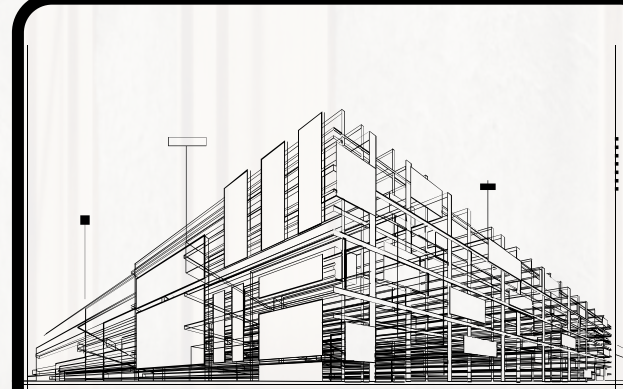

MEP

Indus Build offers comprehensive MEP design services, ensuring efficient and reliable systems for mechanical, electrical, and plumbing needs.

Interior Design

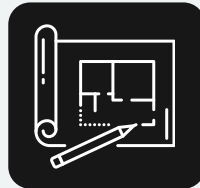

Indus Build offers comprehensive interior design services, aesthetically pleasing spaces that reflect your unique style and preferences.

Exterior Design

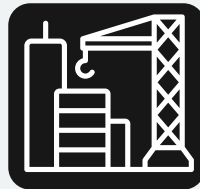

Indus Build offers expert exterior design services to create visually stunning and functional building facades.

Our Residential Services

Architecture Design

We collaborate with you to understand your vision, budget, and lifestyle. Our designers translate your ideas into initial sketches and floor plans, ensuring your dream home takes shape.

Structure Design

Our licensed architects and engineers translate the conceptual design into detailed blueprints, adhering to all building codes and regulations, aesthetics, and safety.

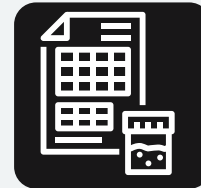

Interior Design

Our interior design team brings your vision to life within the space. We create a stylish and functional living environment that reflects your personality.

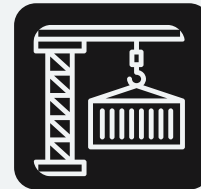

MEP Design

Our MEP (Mechanical, Electrical, and Plumbing) engineers design and integrate essential systems for your home's comfort and efficiency.

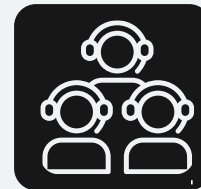

Soil Testing

We conduct thorough soil testing to determine the foundation requirements for your specific site. Our engineers design a secure and stable foundation based on the test results.

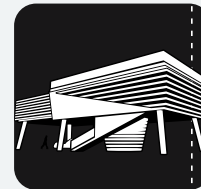

Construction

Our experienced construction team builds your home with meticulous attention to detail and quality craftsmanship. We keep you informed throughout the process.

Engineering and Supervision

A dedicated project manager oversees the entire construction process. Ensure adherence to timelines, budgets, and quality standards.

Conceptual Design

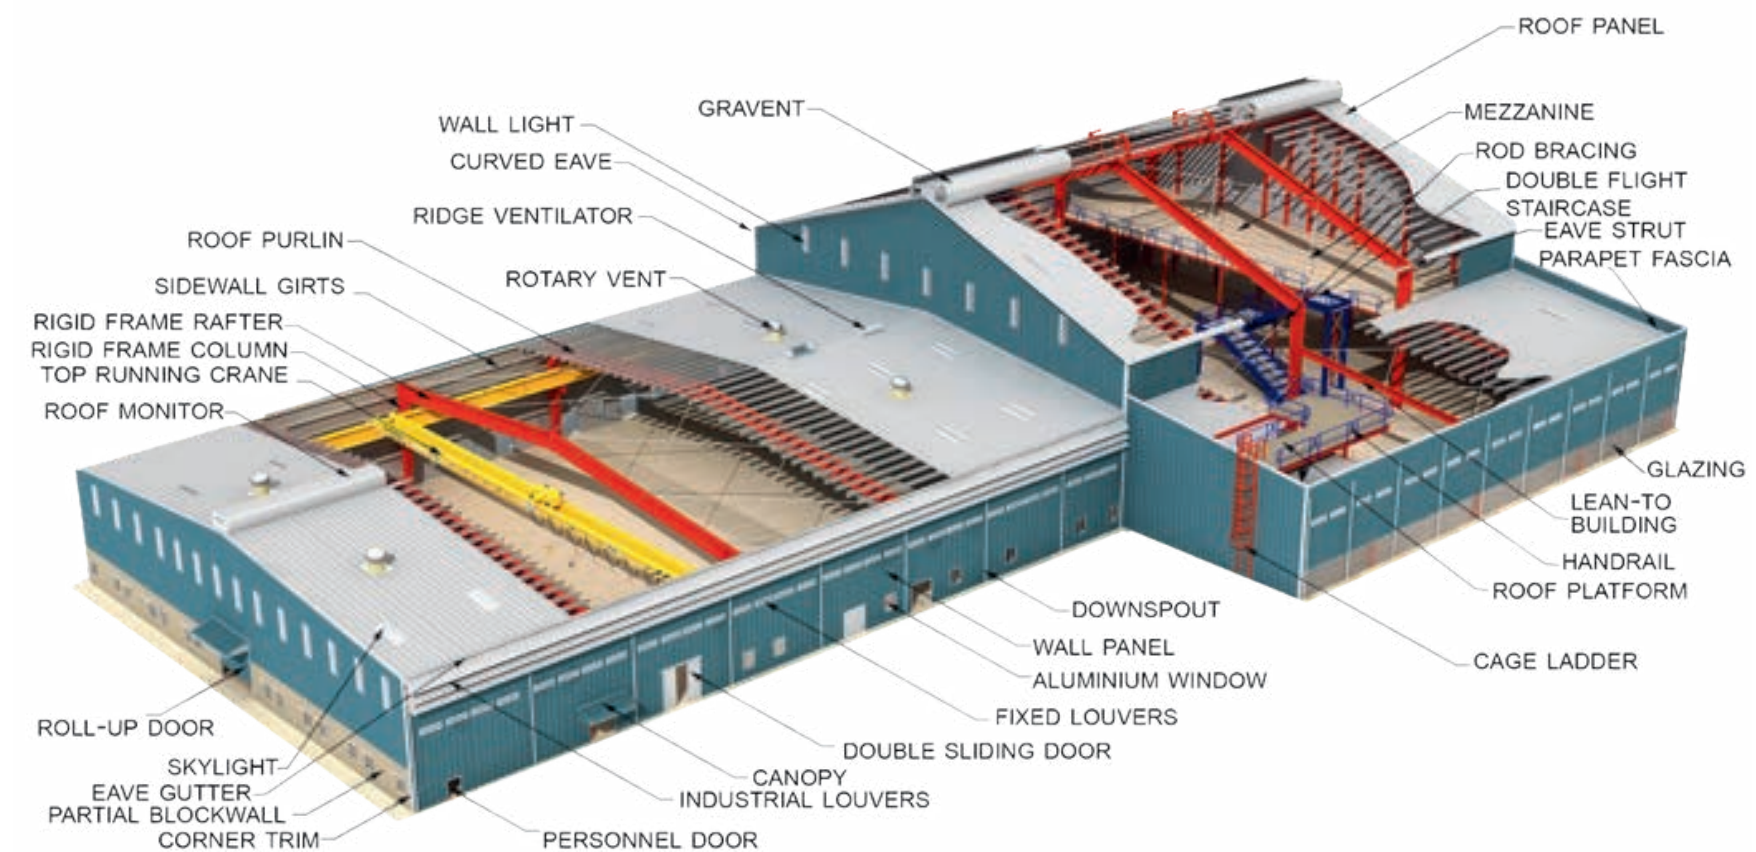

Our team of architects, engineers, designers, and construction professionals have a proven track record of success.

WE PROVIDE AI CAMERA ON THE CONSTRUCTION SITE FOR THEFT CONTROL AND PROGRESS TRACKING

- *The ai camera is equipped with facial and construction material recognition capabilities.*
- *It can detect potential theft and monitor the progress of construction,*
- *The special feature is the SOS system, which ensures that our security guard arrives within 10 minutes in case of theft.*

Pre-engineered Building System (PEB)

INDUSBUILD BUILDS PRE-ENGINEERED BUILDINGS TO YOUR EXACT NEEDS. THESE BUILDINGS ARE DESIGNED, BUILT, AND INSTALLED QUICKLY TO MEET YOUR REQUIREMENTS. PRE-DESIGNED, FABRICATED, AND ERECTED TO PRECISELY MEET THE CUSTOMER'S REQUIREMENTS, ENSURING OPTIMAL FUNCTIONALITY AND SATISFACTION ACROSS ALL DESIGN ASPECTS.

Our Expertise in Pre-engineered Building

INDUS BUILD PRE-ENGINEERED BUILDINGS ARE PRE-DESIGNED, FABRICATED, AND ERECTED TO PRECISELY MEET THE CUSTOMER'S REQUIREMENTS, ENSURING OPTIMAL FUNCTIONALITY AND SATISFACTION ACROSS ALL DESIGN ASPECTS.
